Empowering People
The last year drought was very stress full, but this helped us to recognize our own strengths through working in these adverse condition. This year Yuva Mitra has experienced real growth by getting an opportunity to work out of Maharashtra. To start work in Punjab and Himachal Pradesh was really challenging for us. But when we took a concrete stand for work, we experienced economical as well as geographical growth. The employment ratio also increased along with this expansion. With the support of new collaborations, partners, technical organizations and new friends, we become confident. Large number of families got connected with Yuva Mitra through this work. Over a period of time, Yuva Mitra has gained recognition as a resource organization through this development work. The result of last year work made people satisfied which really made us very happy.

I take this opportunity to thanks all the supporters, organizations, community and stack holders for showing confidence in us and for being a part of this journey.

Thanks !
Yuva Mitra is a Social Development Organization working in a Nashik Dist since last 16 Years. Yuva Mitra works for development of Women, Child, youth and Farmers through Health, Education, Biodiversity conservation, Agriculture and water management, livelihood management, Natural resource development. People institution building and its strengthening is a key skill achieved by organization. The journey started from small villages like Ramnagar and Jamgaon now reaching up to Punjab and Himachal Pradesh. Yuva Mitra always believes in people-centric approach of development where people are core in the decision making process. Yuva Mitra has design all program to mitigate community needs and issues. Sustainable development and resource creation is always specialty of work.

युवा मित्र धारणातील पुनर्जीवन एवं एकांतर्गत उपजीविका विकास कार्यक्रम:

सिखरची जीवनसाधनी व्यवस्था शासित प्रवन्धन कार्यक्रम २२ गावांचे अस्तित्व अवलंबून आहे. या नवीन विकास सरकारने १८७० से ते १८८० दरम्यान २० वेळा बंधारे बांधून त्यावरील पातळीरपण्या शेतकरी पाणी देवनारी स्वास्थ्य केलेली होती. या व्यवस्थेचे नियमन, देखभाल दुरुस्ती गावातील पंचमंडळी व लोकसाहाय्य शेतकरी करावे. परंतु कायाच्या आंदोलनात या व्यवस्था अद्यावधीत गेल्या व त्यावरील पाणी वापर भावनाने परिस्थितीतून पाणी पातळी खातायली.

युवामित्र संस्थेने लोकसाहाय्यात देवनारी बरोबर पारंपरिक पाट-पाणी बातप व्यवस्थेचे पुनर्जीवन कर्याचे काम २००९, पासून हाती प्रेतले, फण त्याला २००५-१६ मध्ये नाहीत करते मिळाली. टाटा ट्रस्ट, मुंबई यांच्यांना अर्थ सहाय्याने देवनारी बरोबर १२ पाट व बंधारे दुरुस्त करण्यात आले. या प्रयत्नांमधूने देवनारी बरोबर फक्त १८ पाट व बंधारे पुनर्जीवन करण्यात आले असून ते वापरी वाणी बापर संस्थानी स्वास्थ्य करून त्याच्या माध्यमातून पातळी देखेख व पाणी वापराचे नियमन केले जाते. सदर कार्यक्रमाच्या यशस्विनीतेमुळे २७७७.६४ हॅक्टर क्षेत्र प्रत्यक्षीत्या तर ३२५२.३६ हॅक्टर क्षेत्र अप्रत्यक्षीत्या आंदोलनाच्यासाठी आले. देवनारी खो-यातिल ५६८८ बिंदींची पाणी पातळी बातचीत मदत झाली. या कामातून ४२७६ कुंडावाना शेतीला राय आणले.

देवनारी बरोबर पाटोऱ्या पुनर्जीवनातून शेतीला मिळणा-या पाणीवर योग्य विनियोग व्यवहार त्यापासून शेतक-यांनी काटकसरगृहे शेती करून अधिक उत्पन्न व्यवहार, या उद्देशाने शेती विकासाची विविध उपक्रम आंदोलन केले. फिक पद्धतीचे, फिकाच्या जातीमध्ये बदल व विविध संचव, गाद्यावली, मलिंगचा व वापर करून भारीपाल्या लागवड, ५ गुंठे शेती प्रयोग, परस्पर उभारणी यासाठी उपक्रम नव्वांने सुरू करण्यात आले.
Regeneration of Diversion Based Irrigation system and Integrated Livelihood Development program-

Dev River is known as lifeline of sinner block on which 22 villages are directly dependent on water. In 1870-1880's decade the British Govt. had build over 20 Diversion Based Irrigation dams on this river and through the canal of these dams the facility of irrigation to the river bank villages was created. Community was taking care of these systems and repaired it every year. The judicious water distribution was managed by the village Panch committee. But later on due to negligence of community toward the system, the dams and canals got defanged and water recharge in the area stopped, which resulted in loss of water level in the area.

Since 2009, Yuva Mitra has being working for regeneration of these DBI systems with community participation. But with support of Tata Trust, Mumbai, the work got shape during last year. Yuva Mitra has repaired 12 DBI systems in this year on Dev River. From this intervention total 18 canal and dams on Dev River have been repaired. 2777.64 hectares of land has being directly and 3722.36 hectares of land has being brought indirectly under irrigation. 4188 wells have also being recharged due to this and around 4276 families have being benefitted through this water. With the participation of beneficiary farmers, Water users association have being established on each canal to maintain this system and manage the distribution of water.

For optimum utilization of canal water generated through regeneration of diversion based irrigation to improve agricultural income, various types of activities were planned. Change in cropping pattern, change in variety, introduction of new agricultural practices, use of raised bed cultivation, mulching, drip irrigation, establishment of kitchen garden and cultivation of vegetables by using 5 R farming techniques has been introduced and implemented in these villages.
Yuva Mitra has revived our devnal canal through “Regeneration of Diversion Based Irrigation System and Integrated Livelihood Development program” which gave us water for irrigation. We got new vision for agricultural development through this program. Yuva Mitra has introduced us 5 R Farming concepts and how to earn daily income from this. Now I am earning Rs. 1000/ day from Agriculture. With the technical support of Yuva Mitra. We cultivate onion and vegetables by using drip irrigation with Yuva Mitras guidance, we got an inspiration to live our life in a new way.

देवनदी जल संसदः

नदी आणि जीवन याच अगदी पहुँच नाही असतं परंतु मानवी हस्तक्षेपानुसार ते नाहीस भायला सुरुवात झाली आहे. नदी काढण्यासाठी खेळविविधता, तिची सुदृढता आणि तिचे अस्तित्व अर्थात राजस्वायासाठी आणि आणि प्रयत्न केले नाही तर कठिन भविष्यत आपल्याला पाण्याच्या मोठ्या संकटाला सामोरे जावे लागेल.

A relation between River and life is very close but due to human interference we almost started destroying it. If we do not take any initiative to protect River biodiversity, its beauty and mainly its existence in proper way we will be defiantly facing a big trouble for water in future. On one side we can see types of pollutions, encroachment in River basin and on the other side some of the other way we plan for diverting river water for industrial development instead of Agriculture and irrigation. On the name of so called development, we excavated wells in river basin, uplifted sand, mixed waste water in rivers, but the real issue is that lot of cement dams have been constructed on rivers and very few people are benefited by this.

To establish equal rights of farmers on river water the concept of Jalsansad is emerged. Yuva Mitra is working for Regeneration of Dev River through people’s participation since last 10 years. There are 22 villages based on the Dev River and the entire livelihood is dependent on it. Through this work 18 WUAs has been established on these and working for equal water distribution of DBI system. To protect River in real way and resolve the issues we need to strengthen these WUA’s and involvement of all river side villages “Devnadi Jalsansad” have formed where 1 member from each WUA is selected as representative of Jalsansad. These members are nominated from each village through gramsabha. The villages involved in these are Sonambe, Vadgaon, Bhatwadi, Lonarwadi, Sinner, Kundewadi, Musalgaon, Datli, Khopdi BK, Khopdi Kh and Devpur of Sinner Taluka. A plan for strengthening of Jalsansad is in process.

Roles of Jalsansad:
- Protection and conservation of bio diversity on the Dev river bank.
- To protect river from getting polluted.
- To protect the river from all types of encroachments.
- To establish water rights of farmers on river water and its equal distribution.
माणिकल काही वर्षापूर्व सर्वेक्ष दुःखाळाचे चटके आपण सर्वेच अनुभवत आहोत. पाण्यात विवेक केली, शेतकांनी आणि ग्रामीणांनी जाळलेली दुःखशा डोळूण्याची बघवत नाही. पाण्यासाठी डोक्यावर हंडा धोवून अनवरणी भटकणारी माय माउली व तिच्या व्यथा सगळंकडे बघवणला मिळाल्या. संपूर्ण महाराष्ट्रात होरप्रभणा-या या दुःखाळाला तौड घायले असेल तर आपण काही ठोस पावले उचलली पाहिजे या उदेशाने युवा मित्र संस्थेने सितर तालुक्यात दुःखाळ निवारण अभियानाचा नुस्खा केली. हे काम करत असतांना नवीन व्यवस्था उभ्या करण्यासाठी बेड व पेसा खर्च करण्यास्थिरता जुन्या पाण्यात व्यवस्था पुनर्जीवन केले तर अधिक परिणामम्यकार काम होईल हे धोरण स्विकारले. शासनाच्या वागती महाराष्ट्र भर अनेक बंधारे, नाला-बांध व पाणर तताव बांधण्यात आले. परंतु काळाच्या आंधाराय या बांध-यांमध्ये गाठ साचलित्याचें त्वांच्या साहसण क्षमता काळजी असली. युवा मित्रच्या प्रयत्नांमध्यें दुःखाळ निवारण अभियानाचा अंतर्गत बंध-यांत साचलेला गाठ काळ्या, नाला सरकारकारण, सर्वीकरण व खोलीकरण अशी कामे करण्यात आली. दुःखाळ निवारण कार्यक्रमांतर्गत सितर तालुक्यातील रामनगर, बडवाव, जामगाव, लोणरवाड्य, दोंदी रु., दोंदी रु., नववाडी, चास, डुंबे, सुठवाडी, बांडे, कीलंगडी, खोपडी रु., धोळबीरनगर, कोनांव व मेंगाव या गावांमध्ये काम करण्यात आले.

साध्य
- बंध-यांतून काळ्यात आलेला गाठ: २२६७८२.१६ क्युबिक मीटर
- ओलिताखाती आलेले क्षेत्र: ६६२० हेक्टर

Since last few years we faced severe drought everywhere. Agriculture, farmers and animals suffered badly due to this situation. It had become impossible for the farmers to farm or survive without water. The situations had become so bad that women walked miles to get water. To face such drought, we had to plan a concrete way of work, with this thought Yuva Mitra started working on drought proofing program. Instead of constructing new dams and water wares, if we work for those water resources & dams which already exists in the areas will work very effectively. There are many watershed development work done by Government in Maharashtra. But due to siltation in this, the water storage capacities of these wears loosen. Under drought proofing program Yuva Mitra started working on de-siltation of these water wares, widening and deepening of nalas in Sinnar block. The work completed under this program is mentioned below:

The drought proofing work has been implemented in Ramnagar, Vadgaon, Jamgaon, Lonarwadi, Dodi.Bk, Dodi.KH, Nalwadi, Chass, Dubere, Sulewadi, Vadjire, Kirtangali, Khopdi.BK, Dhondvirmagar, Konambe and Manegaon villages of Sinnar Block.

**Achievements**
- Silt excavated from dams- 229572.13 cubic meter.
- Land under irrigation- 6620 hectares.
- Barren Land developed- 175 hectares.
- Families Benefited- 1078.
- Water storage increased by: 28.36 Cr. Ltr.
Establishment of Water User associations on Kadawa Canal -

Kadwa Dam is 100% allotted for Agriculture and irrigation purpose which provides water to 11000 hectare area of Sinnar, Niphad, Nashik & Igatpuri block. With Yuva Mitra's initiative, 14 Water Users Associations have been established on Kadawa canal in Sinnar block to reserve farmer's water rights on the same. The main motto behind this work was to provide water to tail farmers. Before the repairing and maintenance work the total irrigation potential in Sinnar block was only 1249 Hectares. But with the initiative of WUA the system were repaired and the irrigation potential is increased by 5425 hectares. Around 4600 families from Komalwadi, Vadangli, Khadangli, Mendhi, Pimpalgaon, Ujani, Rampur and Mahajanpur got benefitted by this water.

As per Maharashtra Management of irrigation system by Farmers Act 2005, it is necessary to handover water rights to WUAs. As per the act it is necessary to repair the canals, Sub canals and make sure that each farmer gets equitable amount of water at the tail. To complete this work Yuva Mitra with the support of local leaders kept follow-ups with irrigation department and Mantralaya. Due to Yuva Mitra’s follow up NABARD's has sanctioned Rs. 53 crores under RIDF funds to complete this work, now the repair and maintenance work is in progress.
Integrated water shed management program (IWMP) -

Yuva Mitra works as a training organization in Integrated Water Shed Management program in Igatpuri, Penth, Trimbakeshwar and Sinnar block with joint collaboration of Central government and State Government of Maharashtra since last 6 years. Through this program Yuva Mitra has provided training to beneficiary farmers, women, self help groups and water shed committees on orientation of IWMP program and livelihood management.

Before getting involved in the Goatry Based Women’s Livelihood Development Program, I hardly had any goat. I got revolving fund of Rs. 10000; I borrowed Rs. 6000 from my relatives and bought 2 goats. Within few days the goats reproduced in which one goat has gave birth to 2 female goat and 2 buck and the second one brought 2 female goats. I got inspired and took an initiative for purchase 6 Goats now I have 19 goats. I gave vaccination and took insurance of all my goats which reduced the risk factor of loss. My dream is to expand this business up to 200 goats.
Women's Livelihood Development Program

Eastern part of Sinnar block is always known as a drought prone area. Even though Agriculture is the main source of livelihood in this area, people always face unemployment due to its rain fed conditions. This situation always kept women away from the process of development. These women rare couple of goats on their own & get money from this to fulfill primary needs. But they never thought of running Goatry as a business professionally.

Yuva Mitra with financial collaboration of IL&FS, started working in this area to minimize the problems in goat rearing and gave a business view to the same through “Women's Livelihood Development Program.

Following activities are conducted under this program:

- Women are provided with training and technical guidance regarding improved methods of goat rearing.
- Assistance of Veterinary and vaccination services are provided to goats to reduce the mortality rates of goats.
- The goat Insurance services are provided to reduce loss caused by mortality.
- Financially weak women are provided with revolving fund to buy goats and built goat shed.
- Weight based Marketing system is introduced to the groups.
- “Savitribai Phule Goat Producers Company Ltd. has been registered for goat marketing.
Pomegranates sold in better prices-

I am engaged in pomegranate cultivation since last 5 years. I got the chance to sell my pomegranate directly to institutional buyers under ONAAR Brand developed in Pomegranate Management Program. I sold the product at Rs.80 per kg which helped to increase my profit by Rs. 48000. My production cost get minimized by 25% due to agro advisory services received from Yuva Mitra.
“Pomegranate Project”

In Sinnar block the area under pomegranate cultivation is increasing day by day. Simultaneously the problems in pomegranate production like disease pest attack and its marketing is also increasing very rapidly. In collaboration with GIZ, Yuva Mitra have started “Pomegranate management program” to minimize the problems in pomegranate production and marketing.

For this program Yuva Mitra involved four pomegranate Farmer Producer Companies and its member farmers. The program reached up to 2168 pomegranate cultivators through Green Vision Farmers Producers Co. Ltd- Wadangli, Bhojapur Khore Pomegranate Pro. Co .Ltd- Chaas, Devnadi Valley Farmers Producers Co Ltd- Lonarwadi and Swami Advaitananda Farmers Producer Co. Ltd- Sangvi.

Services provided to the pomegranate producers through the project:

- Geo Tagging on 150 plots.
- Provided agro- advisory services by experts on the issues like pests, disease control, fertilizer, water management and cultivation to 760 pomegranate producers.
- Empowerment of Farmers Producers Companies through provide training and exposure visits.
- Development of pomegranate supply chain.
- Training and capacity building of farmers and FPCs on pre harvest and post harvest techniques in Pomegranate.

Sustainable Agricultural Development program in Punjab and Himachal Pradesh.

Punjab is known for its agricultural development and green revolution, but is the scenario still the same? When we tried to find the answer, we found that the situation is even worse than what we actually thought. The areas around Ropar (Rupnagar) District in Punjab and Talli area in Himachal Pradesh are in extreme deteriorated state. Though agriculture is their main occupation and it has always been in traditional forms. Farmers did not see agriculture as a business. Lack of business perspective leads to lack of motivation, less production and increase in production cost.

If we change the techniques in farming and encourage farmers to bring changes in the traditional form of farming, we can upgrade their economical condition of farmers through increasing productivity. With this thought Yuva Mitra has initiated “Sustainable Agriculture Development Program” in 16 villages of Punjab and Himachal Pradesh. The aim of this program is to bring Change in cropping patterns, cultivation of vegetable and formation of Farmers Producer Company and its linkage to the market.

Achievements:
- Farmers cultivated vegetables by using improved techniques.
- Change in variety of Maize crops with PMH -1 developed by Ludhiana University of Punjab.
- Established "Kiratpur Saheb Kisan Mitra Farmers Producer Company Ltd."
- FPC has been established for Vegetable Supply chain through tie-up with institutional buyers.

Adolescence is a crucial period in the life of an individual with its characteristic needs and problems of adjustment. Every adolescent has certain needs, the satisfaction of which is essential to his continued physical and others aspects of development. Adolescence is the last chance for interventions that would continue to have a positive impact through subsequent life stages. There is an urgent need to place adolescent girls at the centre of development. To release this anxiety from adolescents Yuva Mitra has intervened in terms to enhance and develop life skills and soft skills of adolescents and help them in creating scientific awareness about the changes that happens in adolescence phase and how to cope up with them through financial collaboration of H.T. Parekh Foundation.

Sukanya Helpline
The objective of creating the helpline was to provide a platform to the adolescent girls so that they can ask their questions which otherwise they are not able to ask openly. The helpline has benefited many adolescents. We have also collaborated with sinner and Vavi police stations by providing them our helpline number and website details which are [www.esukanya.com](http://www.esukanya.com) and [7720834834](tel:7720834834); so that in any case when the girl wants help she can contact us and get quick support.

Run For Girls 2016:
The program of Run for Girls was conducted on 23rd January 2016. On this occasion girls presented various street plays including topics like Female feticide, current status of women in the society, gender equality and Domestic violence. Around 3000 parents, teachers, youths and adolescents participated in this event.
It was a dream come true, when I got an opportunity to do a course in fashion designing. Through this training I could develop my interest. It is easier to do business rather than looking for a job, so I did this work along with managing all the responsibilities of my house. There are many other women in the village who are engaged in tailoring work but the course has helped me in improvising my skills so I can make different types of designer clothes. This business has made me stand independently. Now I earn average Rs. 4000 to 5000 per month.

Objectives and Goals of the project

1. Empowering the economically backward women through providing training to them.
2. To create livelihood Opportunities through fashion designing.

To empower rural women, Yuva Mitra with financial support of KSB pumps have started a 4 months Fashion Designing course. Through this course, training is provided on stitching frocks, Blouses, Punjabi dresses, Sari making and new fashion skills in ladies wears. It was found that it is being difficult for the women to go out, earn for their livelihood, but this course gave them opportunity to start their own home based business and earn livelihood. This also helped them in proving themselves in the new world of fashion.

Yuva Mitra will be concentrating on four key interventions in the year 2016-2017, which are:

1. **Drought free sinner**

Yuva Mitra is focusing towards Drought free Sinner and for the same has decided to regenerate all the water bodies where maximum amount of water can be stored. To start the work on this concept Yuva Mitra has decided to organize a Block level program during first week of October were Corporates, community members, technical institutions, donor agencies and water experts will be invited and approached to decide the work theme on the issue of water management. A water audit of Sinner block will be conducted to monitor the current water availability, its use for farming, its sufficiency and then a plan will be executed in order to expand the storage system. Through this program Yuva Mitra wants to work as a Water Resource organization and be an expertise in this field.

2. **Expansion of Diversion Based Irrigation system:**

- Like Dev River in Sinnar block Other Rivers of Nashik Dist have the same infrastructure of Diversion Based Irrigation which was built by British govt. during 1870 to 1900. Total 296 DBI systems had documented by them which irrigates 30923 hectares of land. Yuva Mitra is working to revive these systems since 2009 and succeeded in repairing 19 DBI Systems in Sinnar block with this experience Yuva Mitra wants to take initiative for reviving other 277 DBI’s through:
  - Policy advocacy with government in Nashik District to repair the same.
  - Yuva Mitra will work to provide technical guidance to complete this work.
  - Will intervene with corporate and other organizations to repair the DBI systems.
3. Goat Resource Center (GRC):
Yuva Mitra is working in goat sector since last two years and has developed its own expertise in this field. At the same time we experienced that there is hardly any platform available to provide technical knowledge and resource material for goat farming.

What is Goat Resource Center?
Goat Resource center is facilitation center to facilitate knowledge, skill, input linkages, market linkages and technologies for small livelihood goat rearing through its training center, research, introduction of new technique in goat rearing, marketing of goat and its byproducts. Goat resource center works for poor, marginalised people and for their livelihood depend up on goatry.

4. "Krushak Mitra Agro Services Pvt. Ltd" : Special Purpose Vehicle (SPV)
Yuva Mitra has established 10 farmer producer's organization in Sinnar block and 1 in Punjab. Working with these FPC’s Yuva Mitra realized the limitations of FPCs in marketing and running business professionally. To solve these problems Yuva Mitra have Registered a Special Purpose Vehicle (SPV) by the name of “Krushak Mitra Agro Services Pvt. Ltd as a apex body of the FPCs. These FPC's can take shares in this SPV and become a partner of profit. Private partners, FPCs and Investors can become a part of the same.
Activities will be started as follows
❖ Integrated Marketing
❖ Processing
❖ Brand development
❖ Centralize Procurement in behalf of FPCs.

**Approach**: Yuva Mitra believes in people-centered approach of development where people are empowered to become agents of social change. Thus we have strived to work with people on issues that concern them and have implemented pro-people programs. Yuva Mitra works as a catalyst and creates models/institutions which are handed over to the community for reinstalling their ownership and responsibility to ensure overall sustainability.

**Monitoring**: we monitor our projects very closely to bring about effective utilizations of funds. Even the community and the partners are involved in the process to ensure overall sustainability.

**Transparency**: we carry out regular audits and our financials are placed in the Annual Reports as well as on the website for public verification.

**Notifications:**
1) Tax benefit: contribution to Yuva Mitra is eligible for tax benefit under section 80 – G of Income Tax Act and the Annual tax receipt is immediately sent to the donor on respective email Id or address.
2) Updates: regular updates regarding the utilization of funds is provided on given email address or sent on postal address.
3) Yuva Mitra has also established a platform through which the donor can contribute to the social development activities by making payment through ECS.

**Why ECS?**
- Anyone can contribute as little as Rs. 110 every month.
- Hassle free and easy to set up
- Automatic contribution – The amount gets debited automatically every month without having to remember about the same.
